I'm an adult learner who was always interested in music but who didn't take voice lessons as a child. I have been taking voice lessons from Donna Henry for almost a year. I can't recommend Donna highly enough. She is an excellent teacher. I've been impressed by her vast knowledge of technique, music theory, and musicianship. She is also very patient and encouraging. I have been able to sing songs that seemed impossible in the past. I've even been able to sing solos at church, where I'm a member of one of the church choirs.

I would recommend Donna Henry as a teacher to anyone of any age.
